MISC SERVICE FEES

- General formulation of new product\$ 50/hour
- Ingredient label statement/allergens only\$ 50/recipe
- New development extra samples\$ 25/sample
- Nutritional analysis spec sheet packet\$150/recipe, base price*
- Product development\$250-\$1,000
- Product spec breakdown/matching w Food tech.....\$500-\$750
depending on formulation

* Assumes that all ingredient 100g spec sheets are available in the USDA database. If not, the customer can collect and provide these. In lieu, at your request, we will be happy to collect any unique spec sheets on your behalf. You will be charged an hourly rate of \$25/hour to perform this service. Additional nutritional information can be provided at a reduced rate for the same formulation if less than 25% of the ingredients change. (For example, a mild version to a hot version would be \$25.) This will provide the report analysis plus a high-resolution graphics file which can be used for product labels. All reports and graphics will be provided via email in electronic format.
